

YOU'RE THE BOSS ...NOW WHAT?

How to transition from coworker to "The Boss"

Most people that get promoted are great at what they do; that is why they got promoted!

So why do these great employees end up micro-managing, mix up interpretations with observations and cause serious breakdowns in communications: all the while working at 125% capacity?

The reason is most supervisors today are not trained for their roles as leaders/supervisors.

In this course we will better prepare you for this transition, students learn easy-to-understand leadership terms with a systems analysis approach designed to build a solid foundation for outstanding leadership.

Students dive into "managing self," transitioning from someone doing the work to becoming someone responsible for the work. Students will also unpackage what self-vulnerability is and will learn where the true power of influence lives.

INSTRUCTOR
Lt. Adam Gormely
(retired)

Over 30 years of law enforcement experience.

WHAT STUDENTS WILL LEARN

- ✓ How to transition from a coworker to the person responsible for the work.
- ✓ How to learn who you are, who your employees are, and what is the job.
- ✓ How to "manage self" and the power of Strengths, Vulnerabilities and Triggers.
- ✓ What is empathy and how do we practice it?
- ✓ What are core essential job functions, and how do you prioritize them?
- ✓ How power and authority differ.
- ✓ How to better prepare yourself for the supervisor's position if you want to be "the boss".
- ✓ What does it cost when supervisors fail to supervise?
