

Anti-masking: What Cops, Prosecutors, the courts, and the Bureau of Motor Vehicles need to know about commercial vehicle charges

MISSION STATEMENT

Our mission is to reduce risks and increase safety through affordable training, education, and customized consultation to public safety organizations.

“The State must not mask, defer imposition of judgment, or allow an individual to enter into a diversion program that would prevent a CDL driver’s conviction for any violation, in any type of motor vehicle” 49 C.F.R. § 384.226.

The provision goes on, but you get the point for now. “Masking” is a problem throughout the country and doing it is against the law. While a violation won’t send you to jail, it could have extreme consequences for your state.

Masking can occur at any level of the criminal or administrative justice process: from the traffic stop through prosecution and even when it comes to abstracts of convictions from the court system or the bureau of motor vehicle’s handling of those abstracts.

This training is intended to teach you about masking and how to prevent it.

This training is being held in Dirigo Safety, LLC’s Auburn Office, and the facility can host about thirty (30) in-person attendees. If you wish to attend in person, please register as soon as possible.

This training will also be broadcast through Zoom for those who want to attend remotely.

Date: August 4, 2023
